What premiums do I need to pay?

Guaranteed Early Income, Guaranteed Income and Loyalty Income rates vary by entry age, deferment period, premium payment term, income term, policy term, death benefit multiple and premium band chosen.

(In case of female life, a 3 year age set back would be applied on the male rates. Further, note that the female rate for the first three entry ages for each benefit option shall be set equal to the corresponding male rate at the minimum entry age.)

Premium payment mode: You may choose monthly, quarterly, semi-annual or annual premium payment mode. The factors applicable for each mode to arrive at equivalent incomes for the chosen frequency are as given below.

Income Frequency	Modal Factor on income payouts being made in arrears	Modal Factor on income payouts being made in advance
Annual	100%	100%
Semi-Annual	98% of Guaranteed Income x 1/2	101% of Guaranteed Income x 1/2
Quarterly	97% of Guaranteed Income x 1/4 102% of Guaranteed Income	
Monthly	96% of Guaranteed Income x 1/12	103% of Guaranteed Income x 1/12

Premium Band: Your benefits in the policy vary basis the premium that you choose to pay, the following premium bands are available under this product -

Premium Bands	Premium
Band 1	Below 35,000
Band 2	35,000 - 99,999
Band 3	1,00,000 and above

^{*}Premium excludes any taxes, underwriting extra and modal factors

Advance Premium

For monthly premium payment mode policies the Company may accept 3 months premium in advance only on the date of commencement of the policy.

In case of advance premium:

- Collection of advance premium shall be allowed within the same financial year for the premium due in that financial year
- The premium so collected in advance shall only be adjusted on the due date of the premium.

What happens if I am unable to pay premiums?

We recommend that you pay all your premiums on the respective due dates to enjoy the policy benefits. However, we also understand that sudden changes in lifestyle like an increase in responsibility or an unexpected increase in household expenses may affect your ability to pay future premiums.

You have following flexibilities in order to ensure that your benefits under the policy continue in full or part.

Grace Period: Grace period is the period after the premium due date, during which you may pay your premiums without any impact on the policy benefits. During the grace period, the Policy is in-force including risk cover under the Rider. The grace period is 15 days for monthly mode and 30 days for annual/ semi-annual/ quarterly premium payment modes.

In case of the death of the life insured during the Grace Period, the death benefit after deducting the unpaid due premium shall be payable. The nominee will not have any rights or obligations except to receive the benefits under the policy.

Non-Linked, Non-Participating, Individual Savings, Life Insurance Plan

If the Policy has not acquired Surrender Value:

If Policyholder does not pay the due premiums within the Grace Period, the policy shall lapse with effect from the date of such unpaid premium ('lapse date'). You can revive the policy within the period allowed for revival of the policy. At the end of the revival period if the policy is not revived, then the policy will be terminated and no benefits will be payable.

Note that in case of Single Pay, the Policy acquires surrender value immediately on payment of the single premium.

If the Policy has acquired Surrender Value:

After completion of first policy year provided one full year premium has been received, and further premiums have not been paid due to any reason, the Policy will automatically be converted into Paid up, on expiry of the Grace period and all the guaranteed benefits under the Policy would be reduced and calculated as given below. You have the option to revive the policy within the period given for revival of the policy. At the end of the revival period if the policy is not revived then the policy will continue in Paid-up status and only the Paid-up benefits will be payable. The timing of the survival benefits payable under paid up policies will be same as for the premium paying policy.

Paid Up Benefits	Paid Up Benefits Payable
Death Benefit	RPU Factor * Sum Assured on Death
Survival	The survival benefits payable will be a sum of - 1. Guaranteed Early Income payable * RPU Factor 2. Guaranteed Income payable * RPU Factor 3. Earned Loyalty Income
Maturity Benefit	Guaranteed Maturity Benefit (if applicable) * RPU Factor In case the option to decrease premiums has been enforced by the Policyholder the maturity benefit to be considered will be the revised benefit amount.

Where,

RPU Factor = Number of Premiums Paid / Number of Premiums Originally Payable

Earned Loyalty Income = Earning Factor * PRU Factor * Loyalty Income

Where,

Earning Factor is 100% immediately on payment of all due premiums, else Earning Factor shall be as per the table below:

Premiums Paid/ Premium Payment Term	5	10	11	12
1	0.00%	0.00%	0.00%	0.00%

Revival:

You have the flexibility to revive your lapsed/paid-up policy within the revival period of five years after the due date of the first unpaid premium, subject to the terms and conditions the Company may specify from time to time.

The difference between the paid-up survival benefit already paid out during the revival period and the original survival benefit will payable to the policyholder on revival of the policy.
